Verification Statement

This verification has been conducted in accordance with RICS Methodology and EN 15978

I hereby confirm that, following detailed examination, I have not established any relevant deviations by the studied Life Cycle Assessments:

- the underlying data collected and used in the LCA calculations,
- the way the LCA-based calculations have been carried out,
- the presentation of environmental performance included in the EPD, and
- other additional environmental information included in the declaration, if existent with respect to the procedural and methodological requirements in ISO 14025:2010 and EN 15804:2011.

Company-specific data has been examined as regards plausibility and consistency; the declaration owner is responsible for its factual integrity and that the product does not violate relevant legislation.

I confirm that I have sufficient knowledge and experience of construction products, the construction industry, relevant standards and the geographical to carry out this verification.

I confirm that I have been independent in my role as verifier; I have not been involved in the execution of the LCA or in the development of the declaration and have thus no conflicts of interest regarding this verification.
